Yujian Wu

CONTACT Information Department of Mathmatics and Statistics

University of Massachusetts, Amherst, MA, 01002

EDUCATION

University of Massachusetts, Amherst, MA

Ph.D., Statistics, 2024

• Thesis Advisor: Ted Westling

• Thesis topic: Constrained non-parametric inference

University of Rochester, Rochester, NY

M.S., Data science, 2019

Chinese Academy of Sciences, China

M.S., Biochemistry, 2014

Shandong University, China

B.S., Biology, 2010

PUBLICATIONS

Statistical theory and methodology

• Wu, Y. and Westling, T. (2022). Nonparametric inference under a monotone hazard ratio order. arXiv:2205.01745. (to appear on *Electronic Journal of Statistics*).

Patent

• Molla, S., Pisharat, M., Wu, Y., Mostowfi, F., and Jaimes., O. (2020). Determining hydrocarbon resource characteristics via mud logging. US20210062650A1.

SOFTWARE AND PACKAGE

Nonparametric inference of a non-decreasing hazard ratio Monotone Hazard Ratio.

Nonparametric inference of a continuous causal dose-response curve ctsDoseResponse.

AWARDS New England Statistics Symposium 2023: student poster award

June 2023

Conference New England Statistics Symposium 2023

June 2023

TEACHING EXPERIENCE STAT 515: Mathematical Statistics

September 2019 - present

E-mail: yujianwu@umass.edu

STAT 111: Elementary Statistics

January 2020 - May 2020

EMPLOYMENT

Department of Mathmatics and Statistics, University of Massachusetts, Amherst, MA

September 2019 - May 2024: Teaching Assistant

Department of Mathmatics and Statistics, University of Massachusetts, Amherst, MA

May 2022 - Auguest 2022: Research Assistant, Advisor: Ted Westling (NSF Award 2113171)

Thermo Fisher Scientific, Shanghai, China

July 2014 - June 2016: Application Engineer

ACADEMIC SERVICES

Peer review

- Journal of Nonparmetric Statistics
- American Journal of Epidemiology
- \bullet F1000Research
- Frontiers in Endocrinology
- International Conference on Numerical Modelling in Engineering
